About the Side Event #586

Latin American positioning on water governance as a platform for the regional sustainable development

June 21\textsuperscript{st} 2012
13:15-14:45
Room “UN5”
Venue: Barra Arena

Rio de Janeiro will be the venue for the Rio + 20 Conference, where is expected thousands of participants from governments, private sector, NGOs and other groups will come together to shape how we can reduce poverty, advance on social equity theme and ensure environmental protection to get to the future we are looking for.

The Rio + 20 Conference Organizing Committee, endorsed the participation of the National Association of Water and Sanitation Utilities of Mexico (ANEAS) as lead organizer of the side event “Latin American positioning on water governance as a platform for the regional sustainable development”, which will be jointly held with the support of the Mexican Institute of Water Technology (IMTA) and College of Mexico (COLMEX)

The objective is to identify key ideas that contributes to improve the decision process of the water sector stakeholders in the topic of Governance, this will be held under the discussion “From Marseille to Rio: Building a Governance for the GIRH in Latin America” where representatives of different instances related to the water management in the region will be able to make a comparison among different ways of governance in Latin-American countries allowing to obtain a general panorama of the topic as a key input for the sustainable development.
